Originality Report Structure

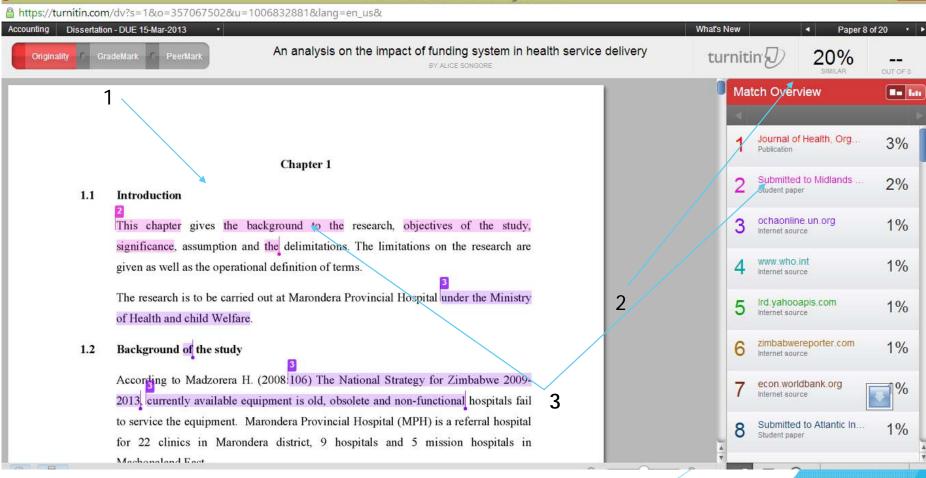

Fig 9

- ▶ The above figure (Fig 9) shows the a sample of the originality report. The Right section of the screen labelled 2 shows the sources of the matching text in the document. The numbers against these sources act as indexes indicating where in the document that matching source is found. For example all matching text form sources number 2 have purple colour and have number 2 against matching text as illustrated by 3 in the diagram above.
- There are some matches that Turnitin picks that the supervisor will have to ignore like the Declaration by the student and also the approval letter which is almost similar to almost every student that writes dissertation here at MSU.
